Tips to Save Electricity

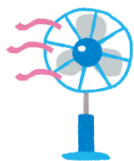

The cost of electricity increased this June!

So, some ideas to save electricity (*Settsu-den*) are introduced here.

■ Air-conditioner

- Setting at 28°C

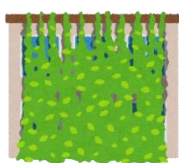

- Using an electric fan at the same time to circulate cool air

- Cleaning the filters once a month

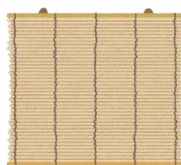

■ Window

- Using heat shielding curtains

- Growing plants

- Using blinds

■ Refrigerator

- NOT overloading

■ Power strip

- Using the strip with on/off switches, and keeping it off when not using it

■ Toilet

- Turning off the functions of a warm seat and a warm water bidet
